QUESTION	INPUT	POSSIBLE SCORE	
On-production Equine Assessment			
Tank Room Review			
The tank room(s) meets requirements for cleanliness and usage.	Yes No	0	
Tank is in use.	Yes No	0	
Urine temperature within acceptable parameters.	Yes No Just dumped urine and tank is still cooling Tank is empty	0	
Tank Temperature Log book assessment.	Records are complete. Records are incomplete.	0	
		0	

QUESTION	INPUT	POSSIBLE SCORE	
Response to temperature excursions.	 No temperature excursions Acceptable Unacceptable		
The bulk tank cleaning process meets requirements.	 Yes No NA	0	
Tank sanitation.	In use and acceptable Cleaning in progress Clean Needs end of season cleaning Unacceptable	0	
Is there a second tank in use?	 Yes No	0	
Urine temperature is within acceptable parameters. (Tank 2)	 Yes No Just dumped urine and tank is still cooling Tank is empty	0	
Tank Temperature Logbook assessment. (Tank 2)	 Records Complete Records Incomplete	0	
Response to temperature excursions. (Tank 2)	 No temperature excursions Acceptable Unacceptable	0	
The bulk tank cleaning process meets requirements. (Tank 2)	 Yes No NA	0	
Tank Sanitation. (Tank 2)	 In use and acceptable Cleaning in progress Clean Needs end of season cleaning Unacceptable	0	
Is there another tank in use? (Tank 3)	 Yes No	0	
Urine temperature is 7.5C or less. (Tank 3)	 Yes No Just dumped urine and tank is still cooling Tank is empty	0	
Tank Temperature Logbook assessment. (Tank 3)	 Records complete Records incomplete	0	
Response to temperature excursions. (Tank 3)	 No temperature excursions Acceptable Unacceptable	0	
	 Yes No NA	0	

QUESTION	INPUT	POSSIBLE SCORE
The bulk tank cleaning process meets requirements. (Tank 3)		
Tank sanitation. (Tank 3)	<p>In use and acceptable Cleaning in progress Clean Needs end of season cleaning Unacceptable</p>	0
Documentation and Program Review		
The Turnout program meets or exceeds all requirements for timing, duration and individual horse welfare needs.	Yes No horses housed indoors No	0
Equine health events documented in an Equine Health Record (Form - 79561).	<p>Documentation complete No clinical events to document Documentation insufficient Documentation unavailable</p>	0
Actions taken in response to clinical events.	<p>Appropriate No clinical events Inappropriate</p>	0
The watering program meets all requirements in terms of volume, frequency and duration.	Yes No horses housed indoors No	0
Ten day average water consumption per mare (CA Gal).	[Text Area]	
Feed Ingredient lists for all prepared feeds and supplements were reviewed and found to be free from animal byproducts.	Yes Horses are not on collection No	0
Outdoor Facilities and Housing		
All outdoor housing meets requirements for space and comfort of the horses.	Yes No	0
All outdoor facilities meet requirements for construction and maintenance.	Yes No	0
Indoor Facilities and Housing		
Indoor facilities and housing meet requirements for construction,	Yes No	0

QUESTION	INPUT	POSSIBLE SCORE	
maintenance, space and suitability for housing horses.			
The indoor temperature is:	[Text Area]		
The indoor relative humidity % is:	[Text Area]		
The lighting inside the barn is adequate.	Yes No	0	
Indoor horses appear comfortable in their present environment.	Yes No horses housed indoors No	0	
Horses in tie stalls have the ability to feed and lie down in a normal resting posture, stand with the head fully raised, and step forward and backward in comfort.	Yes No horses housed indoors No	0	
The horse stables are in an acceptable state of cleanliness.	Yes No	0	
There is sufficient clean bedding to ensure comfort, warmth, dryness, traction and protection against abrasions.	Yes No horses housed indoors No	0	
Feed and Water			
Requirements for safety of feedstuffs are met.	Yes No	0	
Safe, clean, palatable water is available to all horses in quantities to maintain health and vigour.	Yes No	0	
All horses are provided a diet that is adequate for maintaining health and vigour.	Yes No	0	
All horses have access to salt and mineral, either through the ration or free choice.	Yes No	0	
Health Management			
Body condition score is appropriate for all horses (BCS 5-7).	Yes No	0	
Any horses with BCS ≤ 4 or ≥ 8 , are managed appropriately to correct their body condition. (identify horses in comment or observation)	 Yes No	0	
If sick, injured, or painful horses are observed, there is evidence		0	

QUESTION	INPUT	POSSIBLE SCORE	
that all reasonable effort is being taken to relieve their condition, either by treatment or euthanasia.	No sick, Injured or painful horses were observed Yes No		
If sick, injured, or painful horses are observed and do not appear to be improving, there is evidence that veterinary advice has been obtained or arrangements made for prompt euthanasia.	No sick, injured or painful horses were observed. Yes No All sick, injured or painful horses appear to be improving as expected.	0	
All mares in use for collection of PMU appear physically and clinically healthy.	No mares in use for collection Yes No	0	
Any mares presently receiving medication or still under withdrawal period, are unharnessed to prevent collection of urine.	No mares in scope Yes No	0	
All mares harnessed in the barn appear free from wounds or conditions potentially impacted by equipment or harness.	No mares harnessed Yes No	0	
If equipment or harness-type wounds are identified, appropriate and timely treatment is being provided.	No mares impacted Yes No	0	
Overall, the health management program meets requirements.	Yes No	0	
Husbandry and Handling 			
All equipment and harness used in the collection of urine fits properly.	No mares harnessed Yes No	0	
All equipment and harness used in the collection of urine meets all requirements for composition, cleanliness, and maintenance.	No mares harnessed Yes No	0	
Horses showing signs of heat or cold stress are promptly assisted.	No heat or cold stress apparent Yes No	0	
Horses' hooves appear to be in functional condition and have not been allowed to grow to excessive lengths causing injury or discomfort to the horse.	Yes No	0	

QUESTION	INPUT	POSSIBLE SCORE	
The husbandry and handling of horses meets requirements.	Yes No	0	
Euthanasia			
Decisions related to humane endpoints meet all requirements.	Yes No	0	
Summary			
Overall, horses appear well-cared for as per Codes of Practice.	Yes No	0	
Audit Type:	In person (on farm) audit Phone audit	0	
Identify groups of horses seen.	Mares in barn Outside pregnant mares Outside open mares Stallions Weanlings Yearling Fillies Two year old fillies Others	0	
Number of horses seen:	[Number]		
Number of horses owned:	[Number]		
Identify any horses not seen (by group).	[Text Area]
